WORK EXPERIENCE

Professional Experience:
Summer Internship, **RELIANCE INDUSTRIES LIMITED, JAMNAGAR**
Overview on Database Management System, Infrastructure, Networking and its Security on a large-scale industry. Getting in contact with professionally trained employees and working with them.

Volunteering Experiences:
Microsoft Students Partner, Microsoft
We help all the students who want to know about Microsoft Services. We try to enhance the communication and marketing ability by getting in contact with Microsoft Officials and its framework. We acquaint knowledge by learnings from it and spreading among colleagues to build their confidence and skills. **(Link to report)**

Scaler Achiever Club 2020-21, Interviewbit
Head of associating and managing Scaler Academy in any technical & cultural fests that our college conducts. We create competitions to develop skills and problem-solving ability and encourage students especially girls to participate.

Campus Ambassador, Coding Blocks
I help students to excel their career with the help of this platform by organizing events and workshops and creating clubs for their personal benefits.

Campus Ambassador and Participant, GirlScript Summer of Code 2020 (GSSoC)
CA program to encourage girls in and around my contact to get affiliated to technical areas by contributing their innovative ideas to Open Source Projects under professional Mentors. Helping girls to create projects and find bugs from source code.

Campus Ambassador, Coding ninjas
An opportunity to facilitate coding ninjas by bridging students and online platform. Being a part of coding ninjas community, I help in sharing benefits to campus students of different courses and its well-recognized faculties.

Internshala Student Partner 13, INTERNSHALA
Connection to the Internshala internship community to Help people to go through new opportunities with this platform
